February 23: Model The Way

Together we will understand the importance of why leaders establish principles concerning the way people should be treated and the way goals should be pursued. They create standards of excellence and then set an example for others to follow. Because the prospect of complex change can overwhelm people and stifle action, they set interim goals so that people can achieve small wins as they work toward larger objectives. They unravel bureaucracy when it impedes action; they put up signposts when people are unsure of where to go or how to get there; and they create opportunities for victory.

Ideal For:

Ideal for team leaders and team members that desire to be a more effective communicator.

Learning Objectives:

- Find your voice by clarifying personal values
- Set the example by aligning actions with shared values
